AIEN16 GIT Repository 練習

Updated on 28 Jan

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere?

[Import a repository.](#)

Owner *

Repository name *

test for teach

Great repository names are s Your new repository will be created as test-for-teach. but fictional-train?

Description (optional)

test

☒ Public

Anyone on the internet can see this repository. You choose who can commit.

☐ Private

You choose who can see and commit to this repository.

Initialize this repository with:

Skip this step if you're importing an existing repository.

☒ Add a README file

This is where you can write a long description for your project. [Learn more.](#)

☒ Add .gitignore

Choose which files not to track from a list of templates. [Learn more.](#)

.gitignore template: None

☐ .gitignore template

Filter ignores...

Archives

When creating source code archives, you can choose to include files stored using Git LFS in the archive.

☐ **Include Git LFS objects in archives**

Git LFS usage in archives is billed at the same rate as usage with the client.

GitHub Pages

Pages settings now has its own dedicated tab! [Check it out here!](#)

Danger Zone

Change repository visibility

This repository is currently public.

[Change visibility](#)

Transfer ownership

Transfer this repository to another user or to an organization where you have the ability to create repositories.

[Transfer](#)

Archive this repository

Mark this repository as archived and read-only.

[Archive this repository](#)

Delete this repository

Once you delete a repository, there is no going back. Please be certain.

[Delete this repository](#)

Are you absolutely sure?

Unexpected bad things will happen if you don't read this!

This action **cannot** be undone. This will permanently delete the `jhnjhnjhnjhn/test-for-teach` repository, wiki, issues, comments, packages, secrets, workflow runs, and remove all collaborator associations.

Please type `jhnjhnjhnjhn/test-for-teach` to confirm.

I understand the consequences, delete this repository
